- This Log lists 15 properties. Please attach additional copies as necessary.
- A parallel inspection must be completed in accordance to R4-30-102(1) with a parallel inspector who meets the Board's requirements under R4-30-102(2). Please include your Parallel Inspector Affidavit(s) with this form. Logged parallel inspections signed by a parallel inspector who does not meet the Board's requirements per R4-30-102(2) will be rejected.
- A parallel inspection must meet the statutory definition of a 'home inspection' pursuant to ARS 32-101(17). Logged parallel inspections conducted on either a non-residential building or a residential building of more than four units will be rejected. If you believe your rejected parallel inspection meets the statutory definition, you may request the Board, at a regularly scheduled Board meeting, review the matter.
- The applicant will be responsible for obtaining new parallel inspections for each rejected inspection.

As of 5/25/2024, the updated Home Inspector Standards of Professional Practice went into effect. Pursuant to A.A.C. R4-30-247(A)(6), "The 30 parallel inspections and home inspection report shall meet the standards in R4-30-301.01..."

Each of the parallel inspections submitted with this application meets the standards in place as of 5/25/2024.
