

Seal Affidavit – No Expiration Date Required

Effective August 5, 2018, the rules which govern the Board of Technical Registration were changed to repeal the requirement that seals must contain the expiration date of a professional's registration.

This is to say that the State no longer requires the expiration date. Local jurisdictions may have requirements beyond those of the State.

A link to the Secretary of State website, which includes a full list of the BTR rules, may be found on our website at [btr.az.gov](#) -> LAWS AND STANDARDS -> AZ BTR RULES

Examples of Signature, Seal and Date of Expiration Meeting Requirements of R4-303 and R4-304:

Appendix A. Sample Seals

Samples:

Sign your name across lower portion of the seal. Do not cover your name or registration number with your signature.

**** ENGINEERS MUST LIST BRANCH – Agriculture, Architectural, Chemical, Civil, Control Systems, Electrical, Environmental, Fire Protection, Geological, Industrial, Mechanical, Mining, Metallurgical, Nuclear, Petroleum, Sanitary, or Structural. The original seal must be the following size:**
